

ENVIRONMENTAL POLICY

ALUPROF SA and GLASSPROF Sp. z o.o.

At Aluprof and Glassprof, environmental responsibility is a core principle guiding our long-term strategy. To meet the expectations of our customers and address the challenges of sustainable development, we have implemented an Environmental Management System compliant with PN-EN ISO 14001:2015. This system reflects the nature and scale of our operations and the environmental impact of our products and services.

We understand the role our companies play in the natural environment, which is why environmental protection is one of our highest strategic priorities.

OUR COMMITMENTS

- safeguarding the environment through pollution prevention and sustainable resource use,
- complying with applicable environmental legislation and meeting internal and external stakeholder requirements relating to identified environmental aspects,
- continuously improving our Environmental Management System to enhance environmental performance.

HOW WE IMPLEMENT OUR ENVIRONMENTAL POLICY

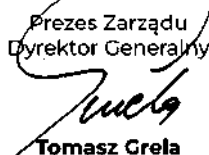

- ongoing compliance with legal environmental requirements and other obligations relevant to our activities,
- continuous development and improvement of our Environmental Management System in accordance with PN-EN ISO 14001:2015,
- allocating resources to environmental protection investments,
- managing environmental risks and preventing potential environmental or industrial incidents,
- meeting environmental quality standards, monitoring their achievement, reducing emissions from production processes, and lowering exhaust emissions,
- promoting responsible waste management focused on preventing or reducing waste generation and ensuring proper segregation,
- applying responsible water and wastewater management practices,
- monitoring and optimising the consumption of natural resources – raw materials, energy, fuels, and water – per unit of production,
- integrating sustainable development practices into product design, manufacturing, distribution, and application to increase the contribution of our products to sustainable construction,
- strengthening ecological awareness among employees through dedicated environmental training.

This Environmental Policy provides the foundation for defining detailed environmental objectives that reflect identified environmental aspects and guide our periodic System Reviews.

The Policy is communicated, understood, and applied by all employees of ALUPROF SA and GLASSPROF Sp. z o.o. and is available to all interested stakeholders.

Our Environmental Management System undergoes regular audits and annual reviews and will continue to evolve in response to technological advancements, regulatory changes, and other requirements.
